

### Sports Funding Impact Report (September 2015 – July 2016)

Last year, at HFS, we decided to spend our Sports Funding on the follow...

- Active Play: funding a Sports Leader to run lunchtime activities twice a week. (Tuesday & Friday)  
Summer Term: Increased Sports Leader time to 4 times a week (Tuesday – Friday) as noticeable difference when no Sports Leader to guide lunchtime play leaders  
IMPACT: activities at lunchtime available to all year groups; led to more participate
- Subsidising Swimming Lessons for Year 3 all year; Year 4 until pupil's fulfilled NC 2014 requirements (25m+) and Booster sessions for Year 6 in the Summer Term.
- Replacing & enhancing range of resources available for teaching P.E. + Huff & Puff resources for lunchtime activities and play leaders e.g. mats, storage Boxes & bags to aid increased use of resources
- Cover Transport costs to allow more participation in competitive sports e.g. coach so the whole of Year 2 could attend and participate in multi-skills event @ SAA; no cost for transporting whole of Year 6 to Sports Hall Athletics & all other events as parents provided transports ~ this cannot be guaranteed next year ~ still investigating minibus costs
- Inter & Intra sports competitions e.g. Euro 2016 Football; KCSP Athletics in Ashford;
- New Playground Markings to enhance learning & participation
- Enrichment activities during Healthy / Sports Week e.g. Skateboarding  
IMPACT: Pupil Voice ~ child enjoyed trying something different; School Council involved in suggesting Enrichment activity for next year.
- Year 6 planned Sports Day events ~ Decathlon linked to Rio Olympics / Paralympics
- Change4life club: Targeted Year 6 Girls; Year 3 & 4; Year 1 & 2; Club provided during lunchtime in Summer Term by Sports Leader.

This year we plan to use our Sports Funding to...

- Replace old equipment e.g. Gym bench; basketball posts;
- Increase range of basketballs; rugby balls & footballs available during lessons;  
IMPACT: increase quality of Teaching & Learning
- Subsidising Swimming Lessons for Year 3 & Year 4. Trialling taking each class for ½ a year each (15 sessions) therefore small groups. (30 children & 4 swimming instructors)  
Will this lead to increased progress? We have also change day to Friday AM: 9:30 – 10:00.  
IMPACT: increased progress ~ more children achieve 25m+ in shorter time span.

- Continue Active Play 4 times a week ~ range of activities available throughout the week for all year groups ~ Tues: Cross-Country. Wed: Change4life. Thurs: Ball Skills ~ Basketball / Netball. Friday: Skipping / Circus Skills. If wet... Stacking cups or Yoga for kids.

IMPACT: more children can participate in a wider range of activities than if clubs were provided after school.

Term 1 Evaluation: Pupil Voice ~ like range of activities – suggestion list from children ~ some of these activities will be provided across the year.

Sports Leader has varied over the term ~ most have been excellent. Subject leader meets regularly with Sport leader to discuss & address any issues promptly ~ more support & structure needed sometimes ~ suggested ideas to increase use of new playground markings available to enhance activities & help Lunchtime Play Leaders to structure games / skills to practice.
- Trialling Active Start breakfast club from 8:00 – 8:45am ~ Cost £2 per day, per child to cover adults. (Sports Leader & TA) Currently 20 places available. (Initial evaluation Term 1: Limited uptake so far! Looked at ways to promote club. If uptake improves, we will investigate providing a wider range of after school clubs which are pay to participate.)
